

BIRD FEEDER CATALOG

WHY FEED BIRDS?

- Many birds, including the common house sparrow are decreasing worldwide.
- Putting up a bird feeder is beautiful way to connect with the earth and see the delicacy of nature from the comfort of your home.
- Feeding birds daily will go a long way in conservation of birds. By simply putting up a feeder by your home, you can help with local sustainability efforts, improve bird health and populations, and better your mental health.
- Bird feeding provides therapy or relaxation. it helps people learn bird behaviour and identification, it offers educational experiences for children.

WHY ADOPT BIRD FEEDER?

- Some bird species don't migrate during the colder months, so these backyard birds benefit from year-round access to bird feeders. When scarce food sources are covered in snow, bird feeders provide an important and easily accessible food supply for winter birds.
- It provides clean and hygienic food for birds to use their limited foraging energy.
- It helps you attract a variety of species and lets you connect with nature on a daily basis.
- By adopting a Bird feeder, you are personally participating in bringing about a huge change in the conservation movement.

BIRD FEEDER TYPES

SEED FEEDERS

BIRD WATER DISHES

PEANUT FEEDERS

BIRD FEEDERS ACCESSORIES

FAT BALL/ SUET FEEDERS

HUMMING BIRD FEEDERS

PEANUT BUTTER JAR FEEDER

BIRD HOUSES

SEED FEEDERS

Seed feeders come in two varieties 'hopper' and 'port'.

Hopper feeders work by having a seed tray at the bottom of the feeder for the birds to feed from. Port feeders have access ports up the tube with perches for the birds to access the food.

"Birds chirping around you is a beautiful realization that life is incredibly good. Let this sound be a gentle break in your routine."
-Hiral Nagda

Types of Birdseed for Outdoor Feeders

Black Oil Sunflower Seed
Best for: All birds

Striped Sunflower Seed
Best for: Larger birds
(with stronger beaks)

Safflower Seed
Best for: Medium and
large songbirds

Hulled Sunflower Seed
Best for: All songbirds

Nyjer
Best for: Smaller birds

Millet
Best for: Smaller birds

Cracked Corn
Best for: Ground-
feeding birds

Red Milo (Sorghum)
Best for: Game birds
and larger birds

Perfect for:

Blue Tit

Coal Tit

Collared Dove

Great Tit

Greenfinch

Siskin

Great Spotted
Woodpecker

House
Sparrow

Long-Tailed Tit

Marsh Tit

Nuthatch

Starling and more.

GARDEN FEEDING STATIONS FOR MIX SEED BLENDS

Suitable for filling most types of seed and seed mixes, such as: blends, mealworms, sunflower seeds, sunflower hearts, sunflower kernels, niger seed to attract spotted woodpeckers, sparrows and other birds.

FAT BALL/ SUET FEEDERS

Fat ball/ Suet feeders allows birds to peck at a solid chunk of food. It consist of a large spiral wire or square wire cage making them easy to identify. Birds can perch on the feeder and hunt for food behind the cage..

We feed them and tame them and think we know them.
And yet they inhabit a world which is really rather mysterious.
— David Attenborough

Suet cakes or fat balls are nutritional supplements for wild birds used in bird feeders. They commonly consist of sunflower seeds and wheat or oat flakes mixed with suet, pork fat, or coconut oil. Further blends may also contain nuts, fruits, mealworms and other insects.

Perfect for:

Blue Tit

Coal Tit

Collared Dove

Great Tit

Chickadees

Blue Jay

Fat balls are often sold within a fine plastic net and hanged directly on branches or in bushes. The nets can however be a danger to big birds and other species, such as deer, dogs, cows who may find the balls and eat them whole.

Great Spotted Woodpecker

Tufted titmouse

Robin

Starling

Nuthatch

Golden Crowned Kinglet and more.

 Dual Seed Compartment

Feeder is designed to attract a variety of different birds. Brings in the smaller birds like finches, chickadees, titmice and sparrows and also ground feeding birds such as cardinals, doves, buntings and jays. Two suet feeders also attracts woodpeckers, nuthatches, and wrens.

- The crystal clear poly-carbonate window is slanted and automatically dispenses seeds.
- Plentiful space for bird to access seeds on both sides and suet on opposite ends. This seed feeder allows many birds to feed simultaneously.
- Flip open the roof to refill large volumes of seed very quickly.
- Great for bird watching near a backyard window, garden, patio or lawn.

PEANUT BUTTER JAR FEEDERS

It's easy to provide Peanut Butter to Birds if you use these attractive Peanut Butter Jar Feeders. Simply hang the bracket on a wall, tree or fence, then slide the jar (with lid removed) under the roof. Secure the jar in place and wait for the birds to arrive! Roof adds to the visual appeal of the feeder and provides a good weather protection.

Most birds that eat nuts or suet will also happily eat peanut butter. It is favoured by smaller birds since peanut butter is easier to collect in small bills and doesn't need to be cracked, shelled, or broken to be eaten. The most popular birds that will snack on peanut butter include:

Chickadees, Tits, Titmice Wrens,
Nuthatches, Creepers, Woodpeckers,
especially smaller species

"Birds are indicators of the environment. if they are in trouble, we know we'll soon be in trouble"
— Roger Tory Peterson

Peanuts are an ideal source of fat, calories, and protein for birds, providing good energy for all their active needs.

Peanut butter also has other nutritious components, including: Iron, Potassium, Calcium, Magnesium
While these vitamins and minerals may only be present in small amounts, they are still essential for a bird's healthy diet and peanut butter can provide them.

BIRD WATER & FOOD DISHES

Birds feel thirsty plenty of times and can find it hard to find a source of drinking water. So, it is never a bad idea to keep a pot or bowl of water in your balconies or on the terrace.

Our water and food dishes bowls are made with high quality stainless steel which becomes easy to clean and are durable.

"If you take care of birds, you take care of most of the environmental problems in the world"

- EASILY ATTACHED:** this hanging bowl can be attached directly to the cage for easy feeding, can be removed from hanger.
- EASY CLEANING:** dishwasher safe stainless steel dog bowl for easy cleaning.
- NON-TOXIC:** safe and non-toxic water bowl crate, perfect feeder for your beloved pets that can last a lifetime.
- CONVENIENT TO USE:** convenient Pet bowl locks in place on dog crate, cat cage, bird cage with easy-to-remove bracket which reduces water & food spilling in pets living area.

Sturdy & Durable Design
Metal frame
Wall Mounted
Wide opening

FA13 WALL MOUNTED BIRD NEST 2- METAL
Ø 2.75" X 1.8" H

Sturdy & Durable Design
Metal frame
Wall Mounted
Wide opening

FA7 STAINLESS STEEL CABLE- SS
Ø 3 mm X 39.5" H

Durable Design
 3mm Thickness
 Long Wire

FA15 CHAIN - METAL & VELCRO
9.5" L X 1.4" W X 5.4" H

Durable Design
 Portable Design
 Rust Proof

HUMMING BIRD FEEDER

With their tiny jewel-toned bodies and super-fast wings, hummingbirds are one of the most charming avian species to attract to a yard. But unlike most backyard-friendly birds, hummers aren't interested in seeds and can't use a standard bird feeder. Instead, hummingbirds require a feeder designed for their slender bills and long tongues that can be filled with the sweet nectar they crave.

Easy disassembly and cleaning: Our hummingbird feeders are easy to disassemble and thoroughly clean. The lids and bases are easy to separate and have openings large enough to easily accommodate a bottle brush.

Colour: Hummingbirds are attracted to the bright colours of their favourite flowers, especially red and pink. Accordingly our feeders are made in bright colours.

Material: Our feeders are built with bird-safe materials such as BPA-free plastic and glass.

HBF1 HUMMING BIRD FEEDER 1
Plastic and Glass
Ø 6.5 X 8" H
Wire Hanging
6 Feeding Stations
Bird Perches
Easy Opening

HBF2 HUMMING BIRD FEEDER 2
Plastic and Glass
Ø 6.5 X 9" H
Wire Hanging
6 Feeding Stations

Easy Opening

BIRD HOUSES

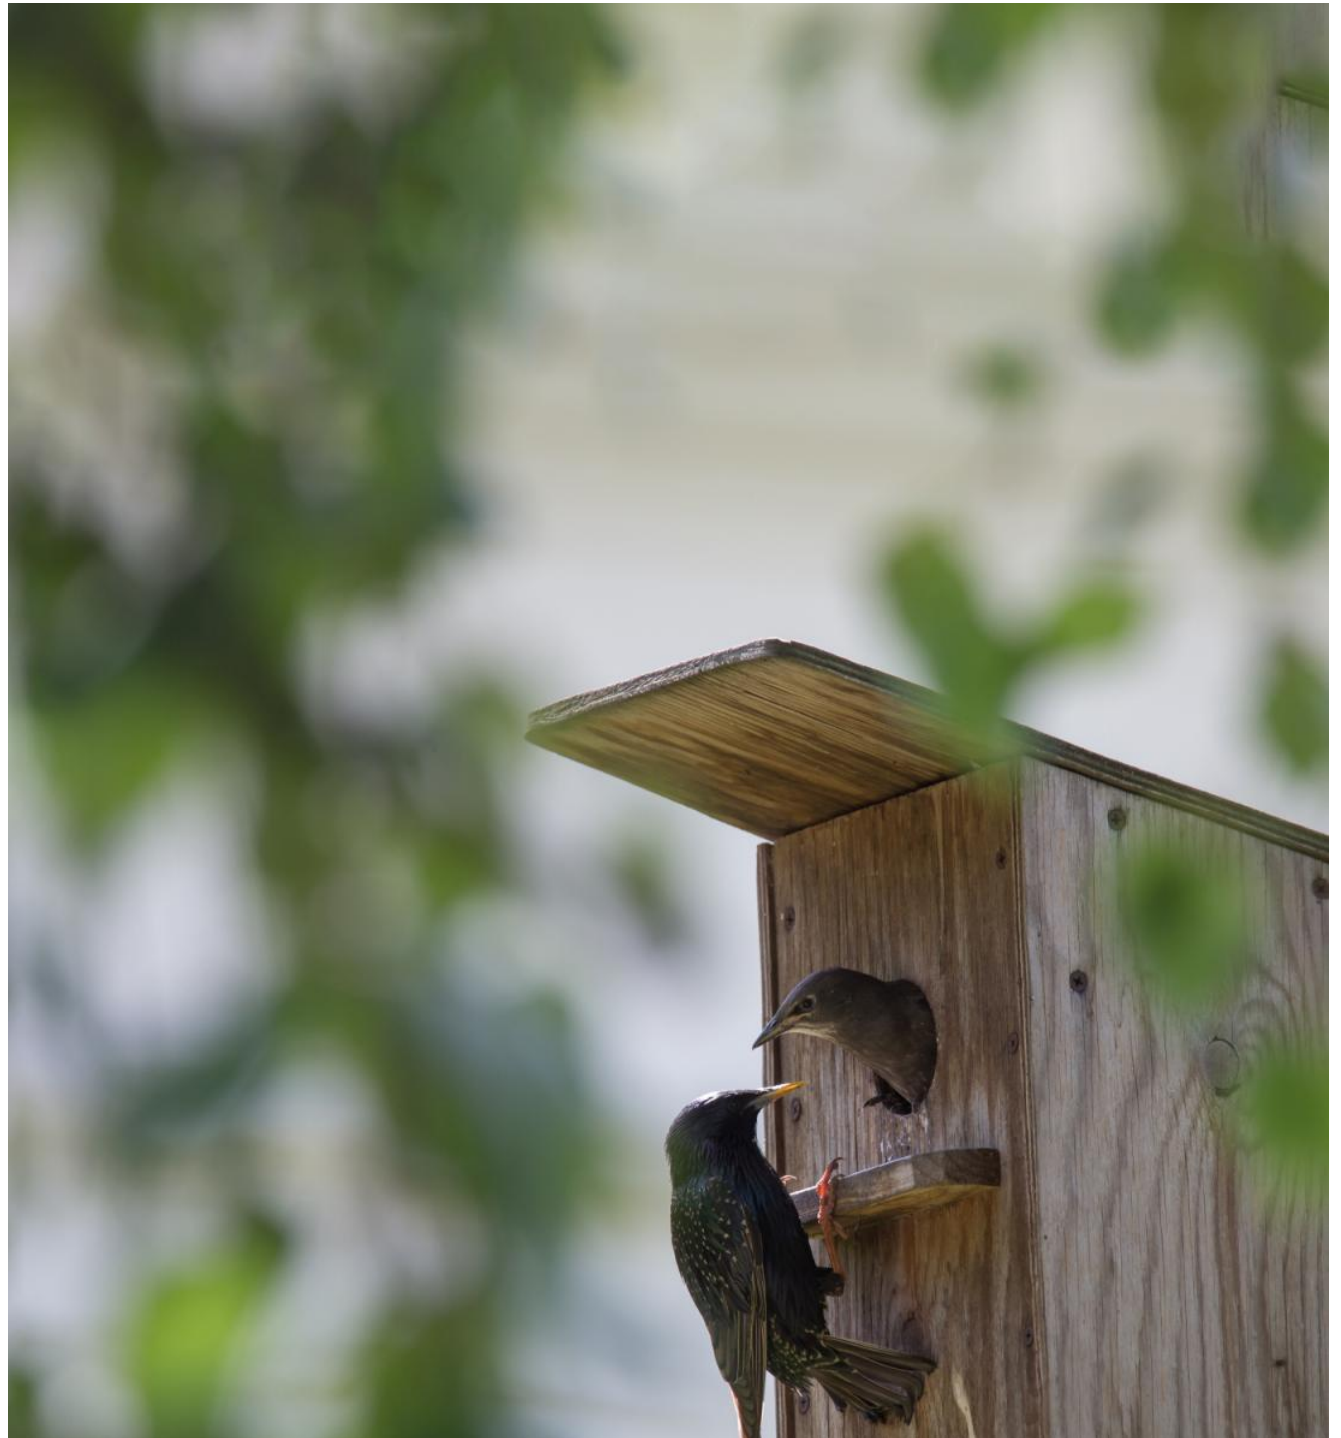

For many species of birds, there is a shortage of great places to nest. There may be birds that would love to call your habitat home. Putting up birdhouses is a small but vital step in recreating suitable nesting areas for native bird species.

Birdhouses can be placed in backyards, schoolyards, parks, orchards, farms, and many other places
